THE WEBSITE, SEAT BY SEAT

The group owner and administrator

Runs a group: its people, its cases, its equipment and its bill. Written for a developer joining the project.

WHO	SCREENS	CAPTURED
Group owner and administrator	20	10/14/2026

Every screenshot shows simulated, seeded data, captured in dark mode while signed in as this user type. Nothing here is a real person, case or investigation. Where a page shows a refusal, that is the designed behavior for this seat.

The owner is the paying customer, and the seat where the business model becomes visible. They manage members and their roles, accept or decline investigation requests, run cases and investigations, hold the equipment inventory, and carry the subscription.

> **A caution for developers.** An administrator passes every permission check by role, so *every surface looks perfect from this seat*. It is the worst possible place to verify a change to permissions and the easiest place to be fooled. Check the member and viewer documents for what the same page looks like without those grants.

How this site decides what you may see

Two things gate every surface, and they are different questions:

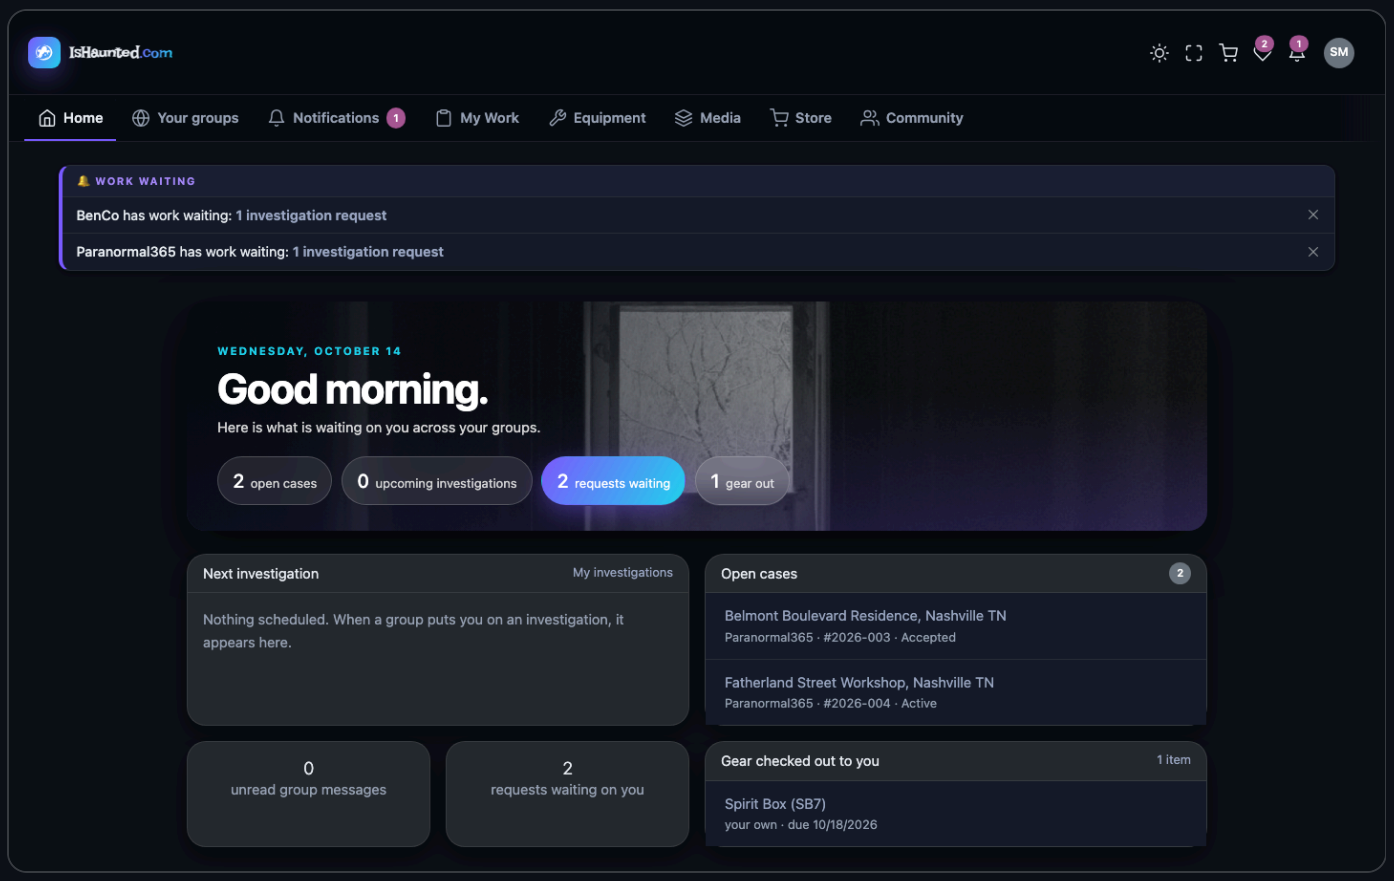

Your seat in a group — owner, administrator, member, viewer — answers "may this person do this?". **The group's plan** answers "does this group pay for this at all?". A member of a group whose plan excludes an area is refused for a completely different reason than a viewer who is not allowed to write, and the site says which.

> **A refusal is never rendered as "nothing here."** An empty list and a server saying no are different facts, and a page that shows the same gray nothing for both teaches people to distrust it. Every list goes through `LoadResult`, which carries loading, empty, refused, session-ended and rate-limited as distinct states — and every one of them has its own words on screen.

This matters when reading this document: where a screenshot shows a refusal, that *is* the designed behavior for this seat, not a broken page.

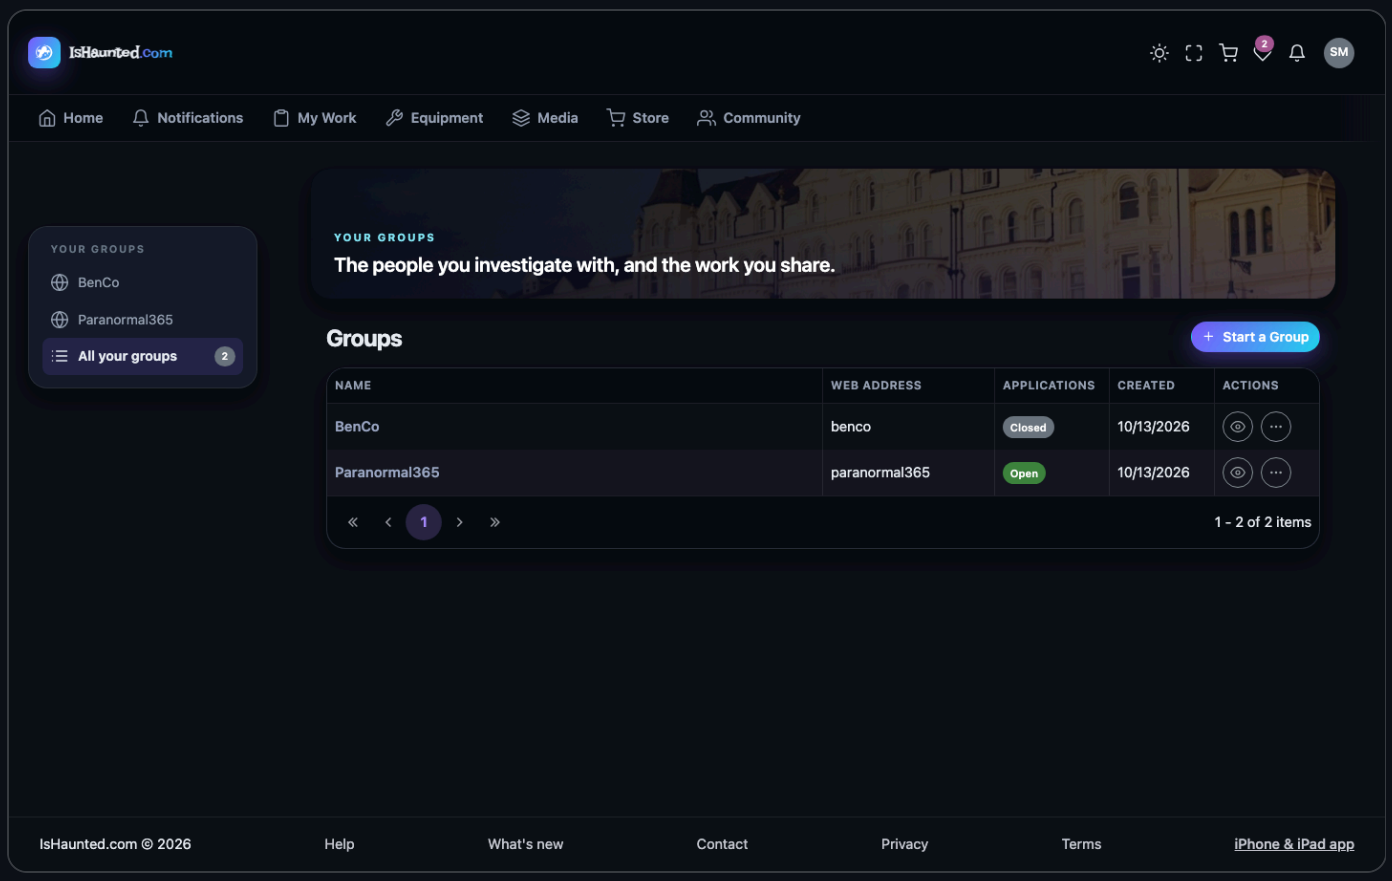

What this user sees, screen by screen

Home. The owner's landing page, including work waiting on them.

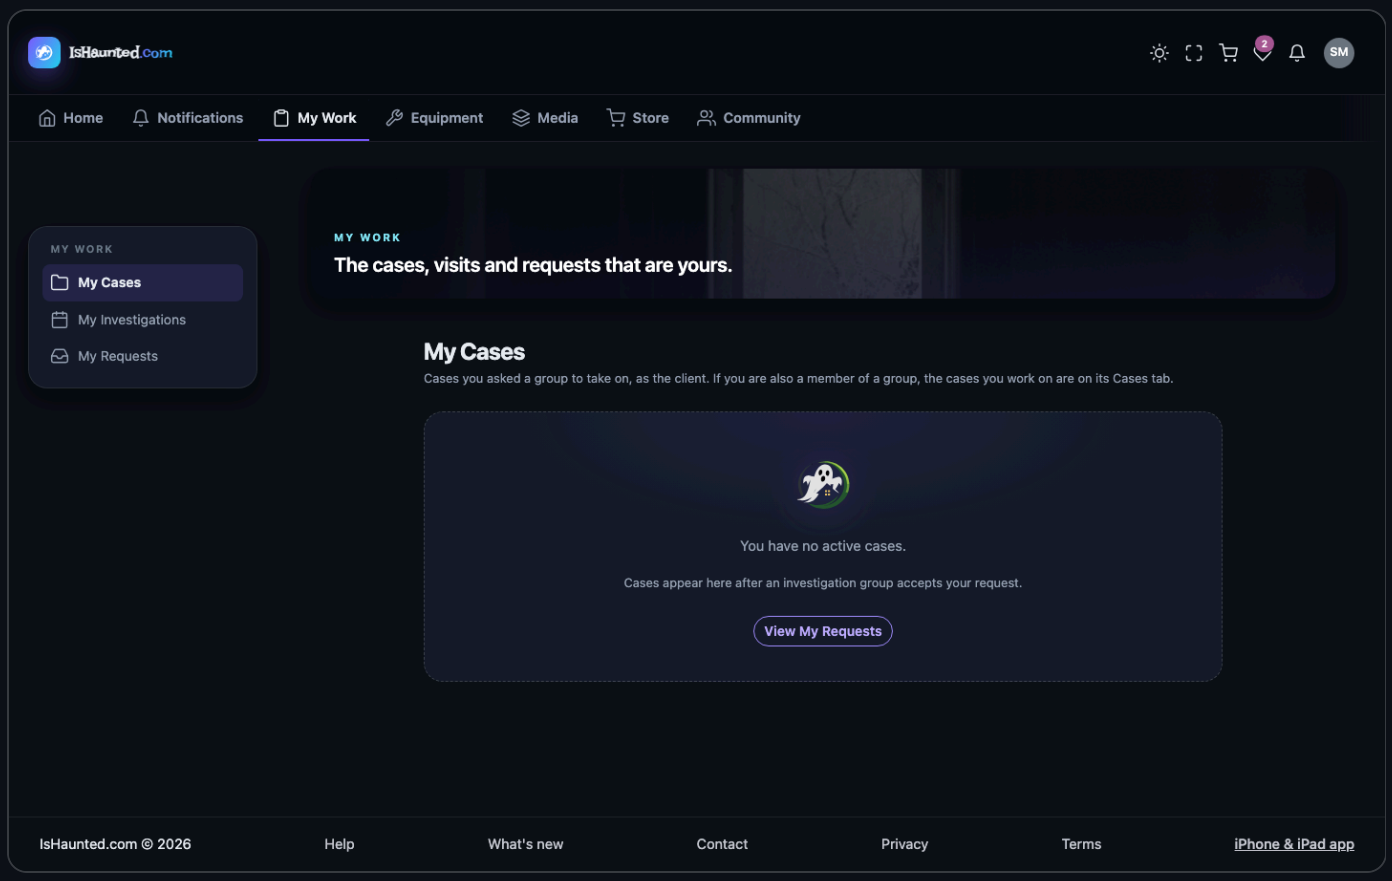

Home

Organizations. Their groups and the management surfaces.

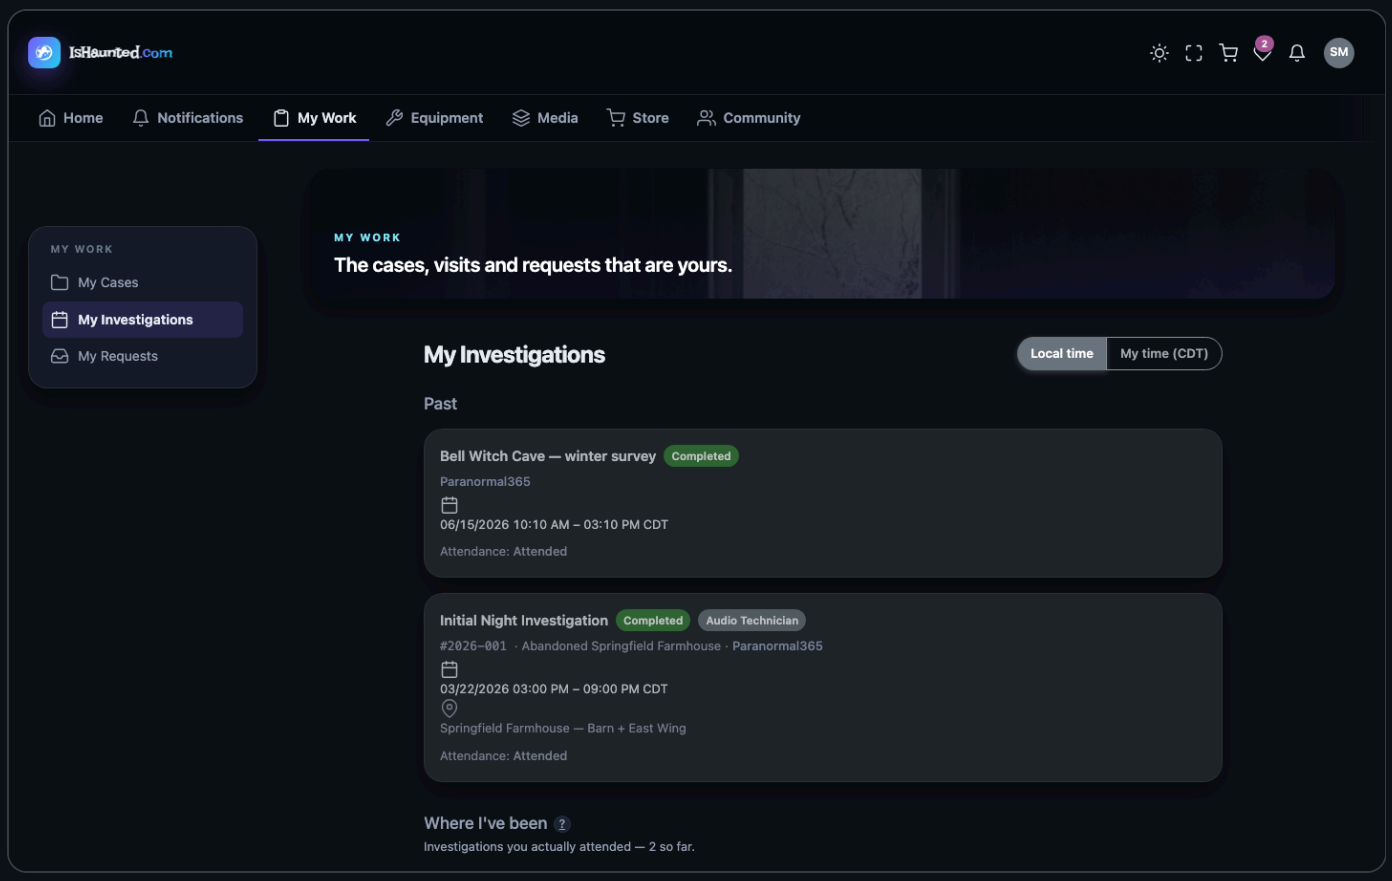

Organizations

My cases. Cases the group is working.

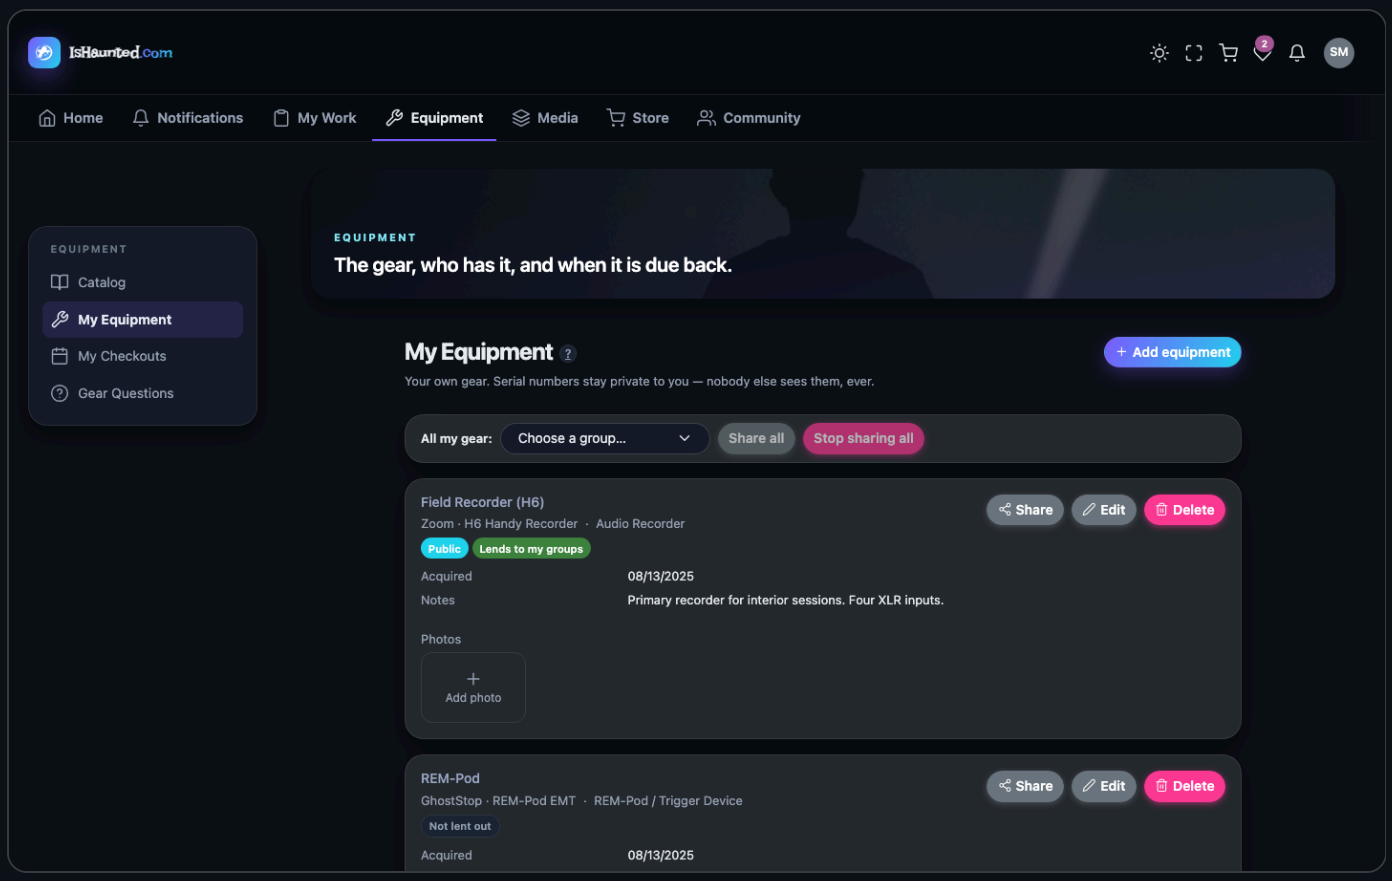

My cases

My investigations. Investigations across the group.

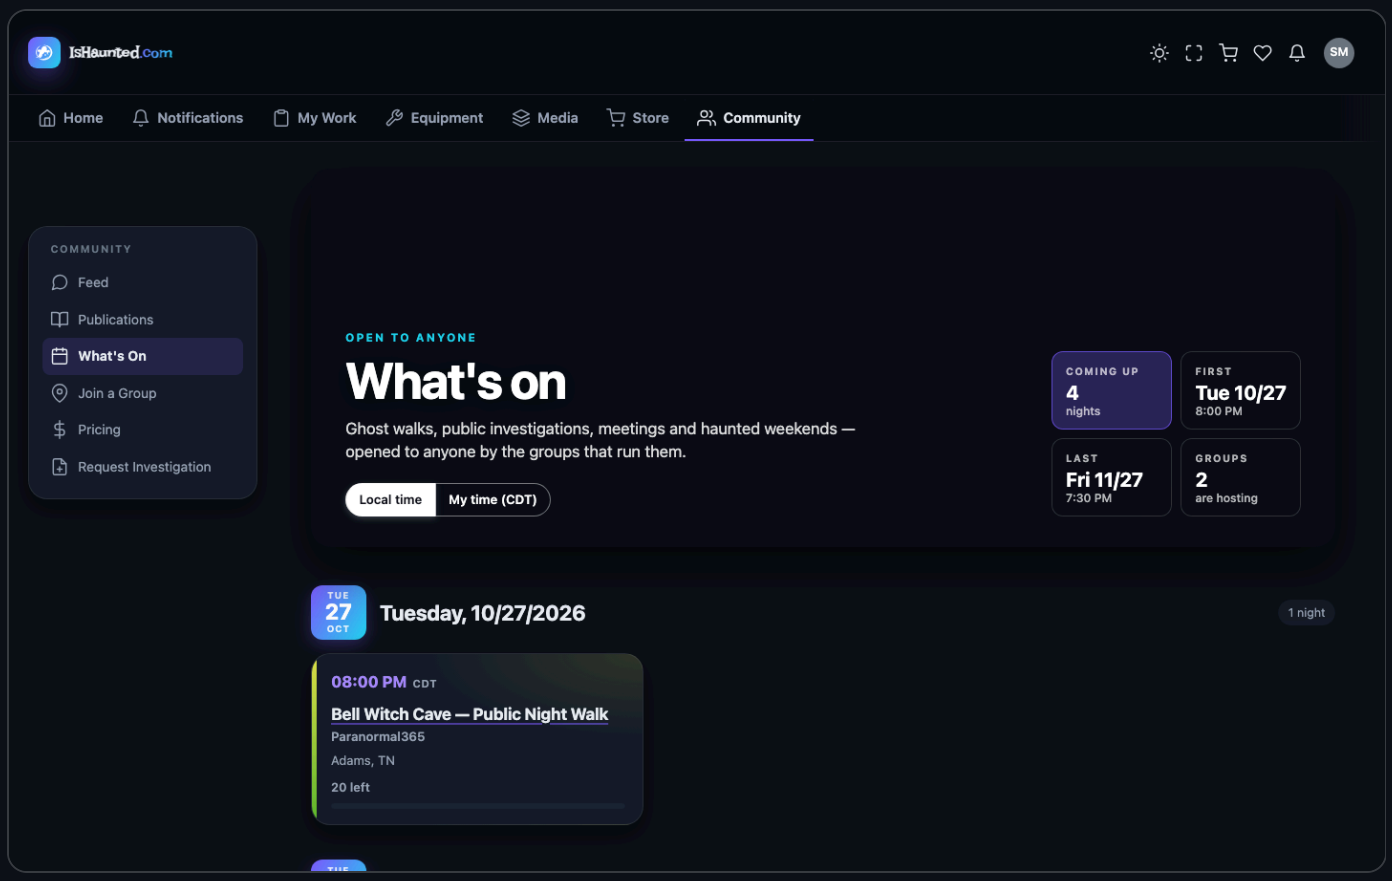

My investigations

My equipment. The equipment inventory and its checkouts.

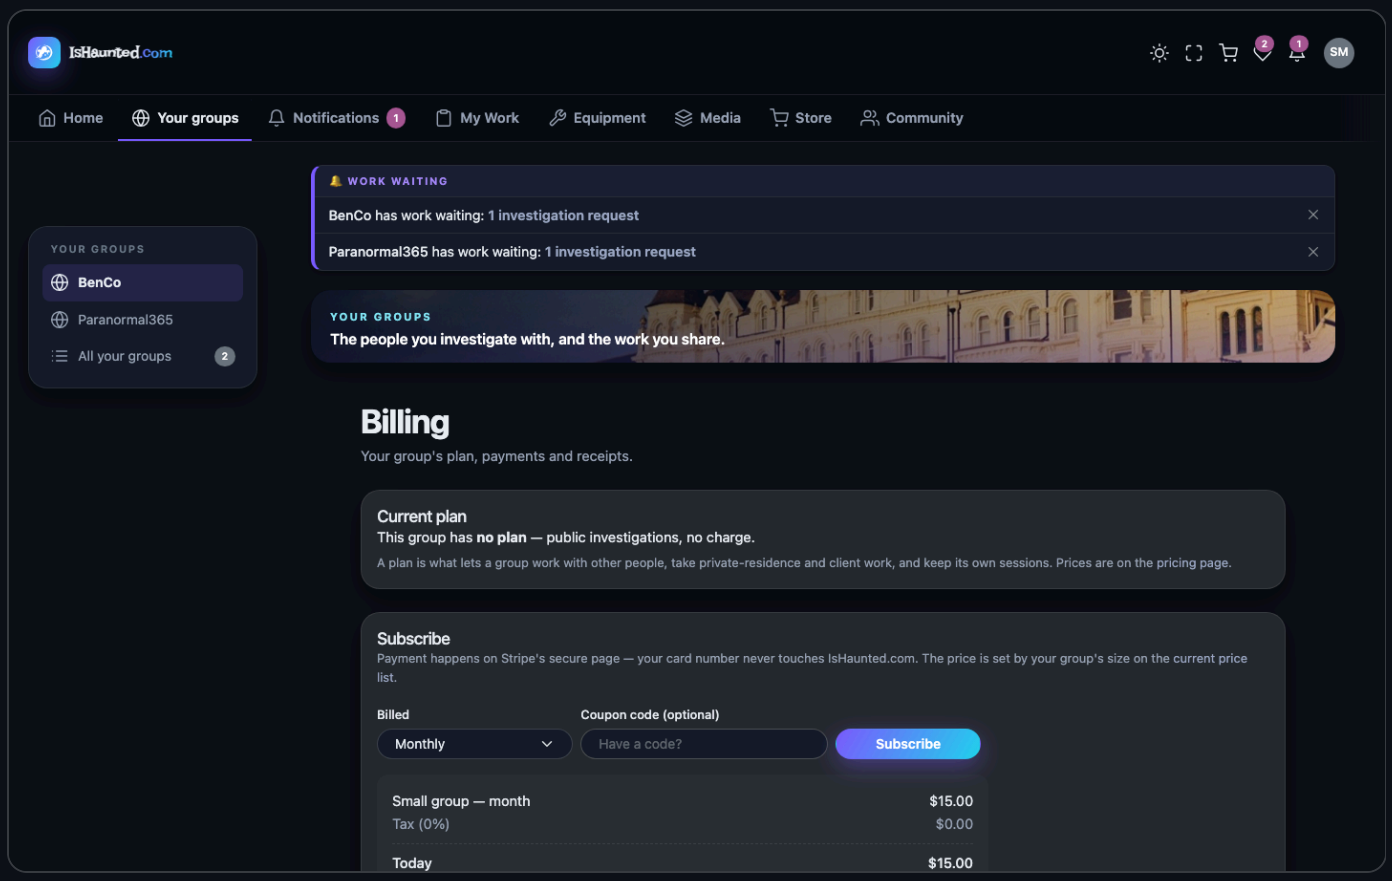

My equipment

Events. Events the group runs, public and private.

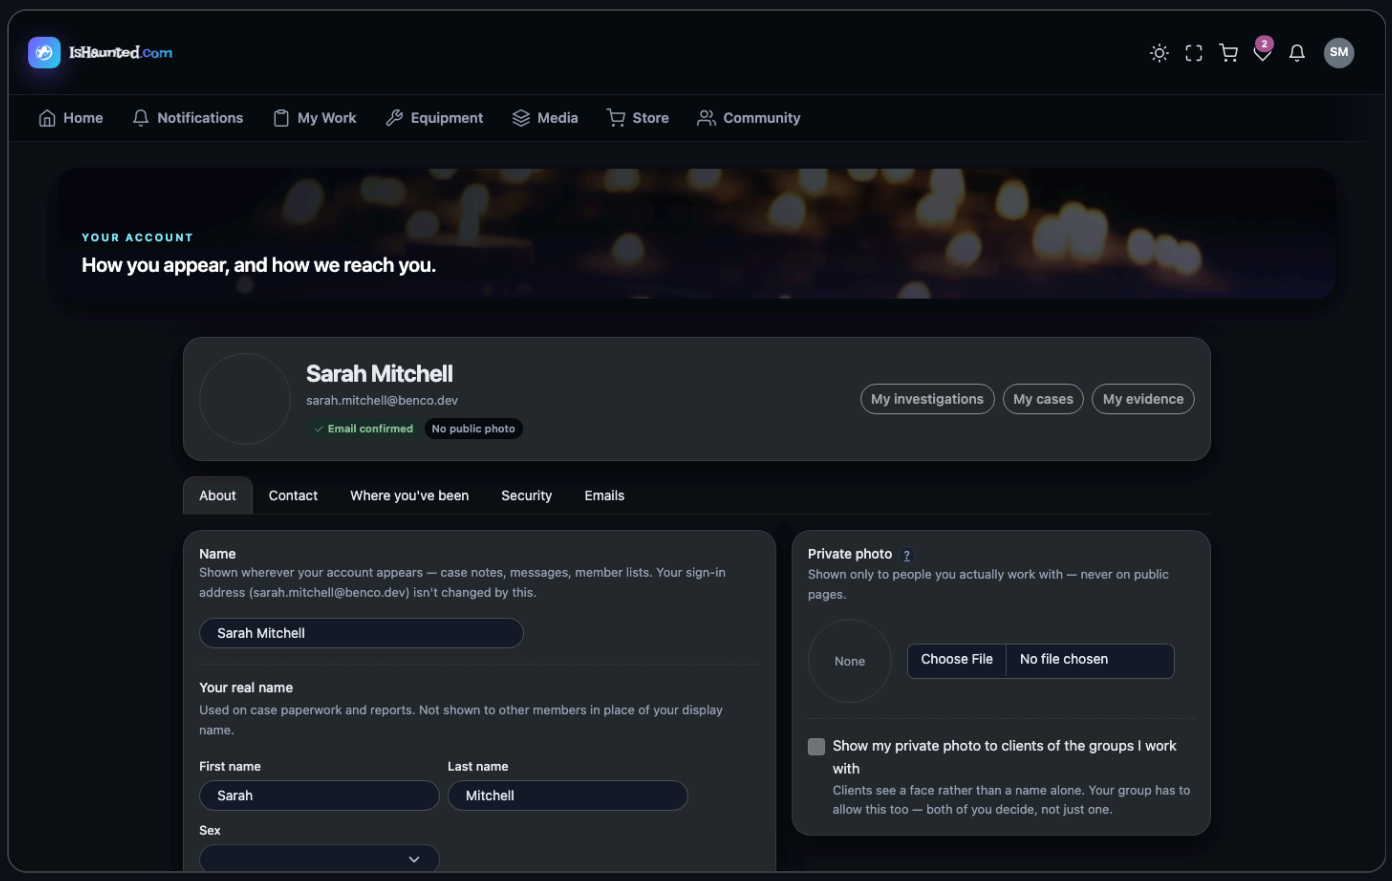

Events

Org subscriptions. The subscription: what the plan covers and what it costs.

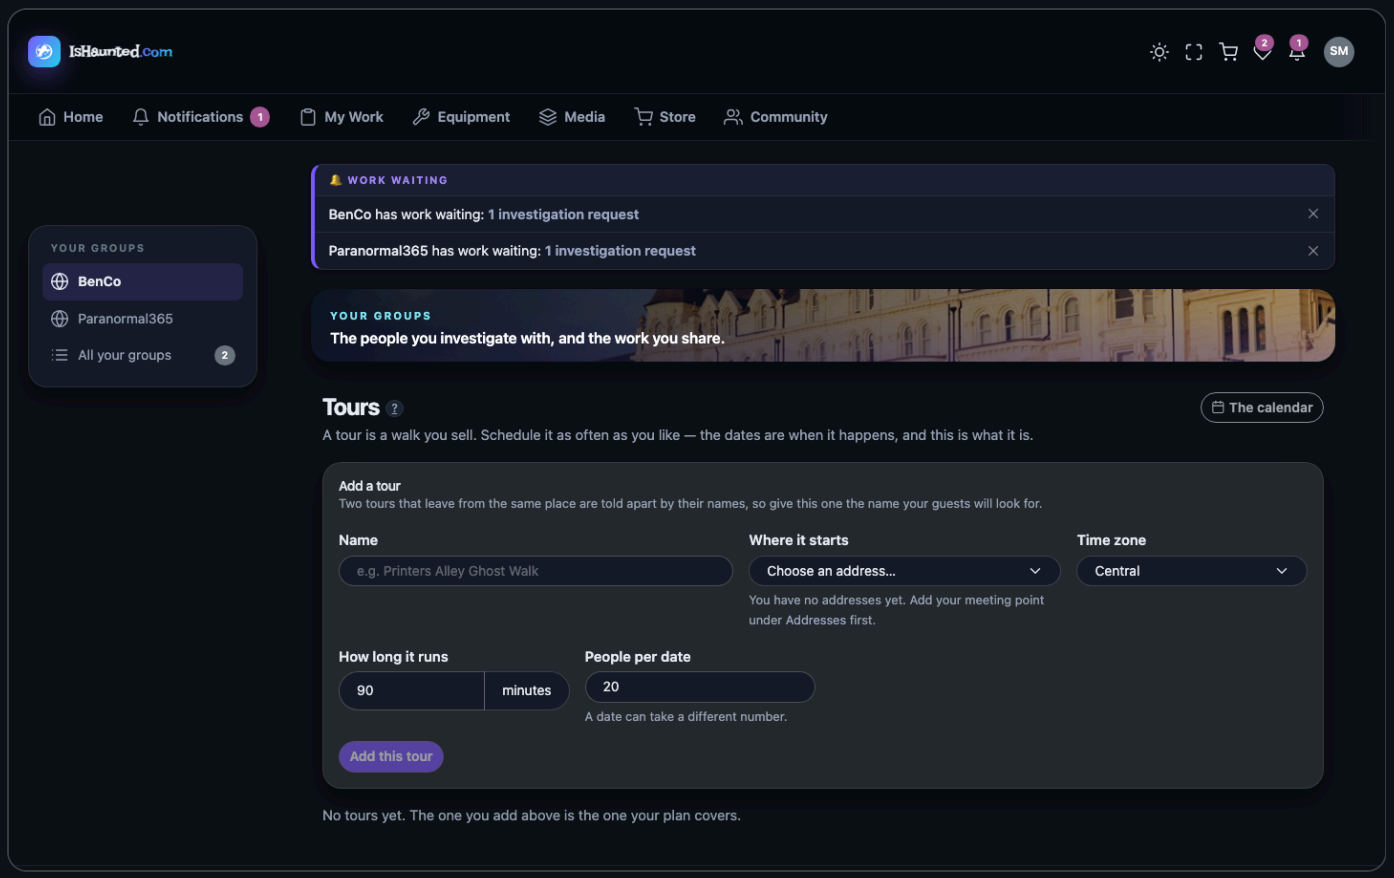

Org subscriptions

Profile. Their own account.

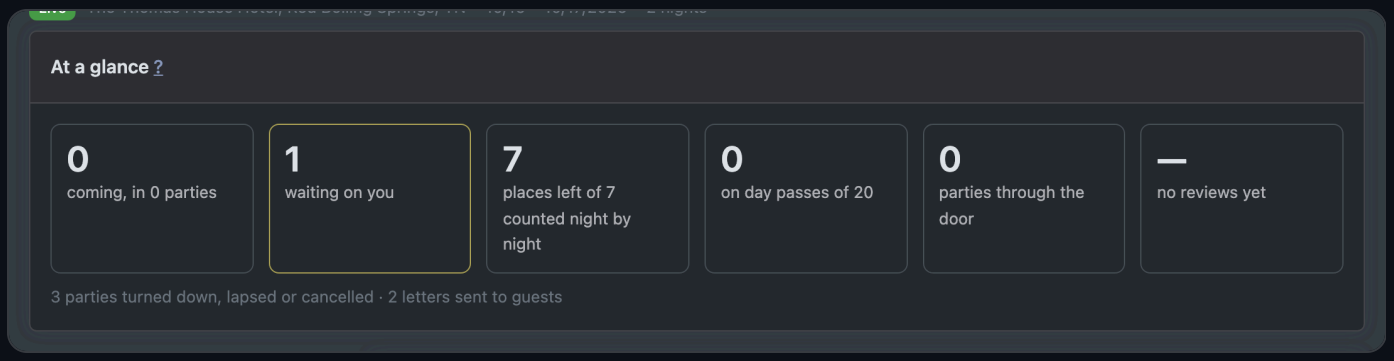

Profile

Tours. Tours, for a business that runs walks — the product the tour plan is priced on, and the door to each tour's guides, guest email and gallery.

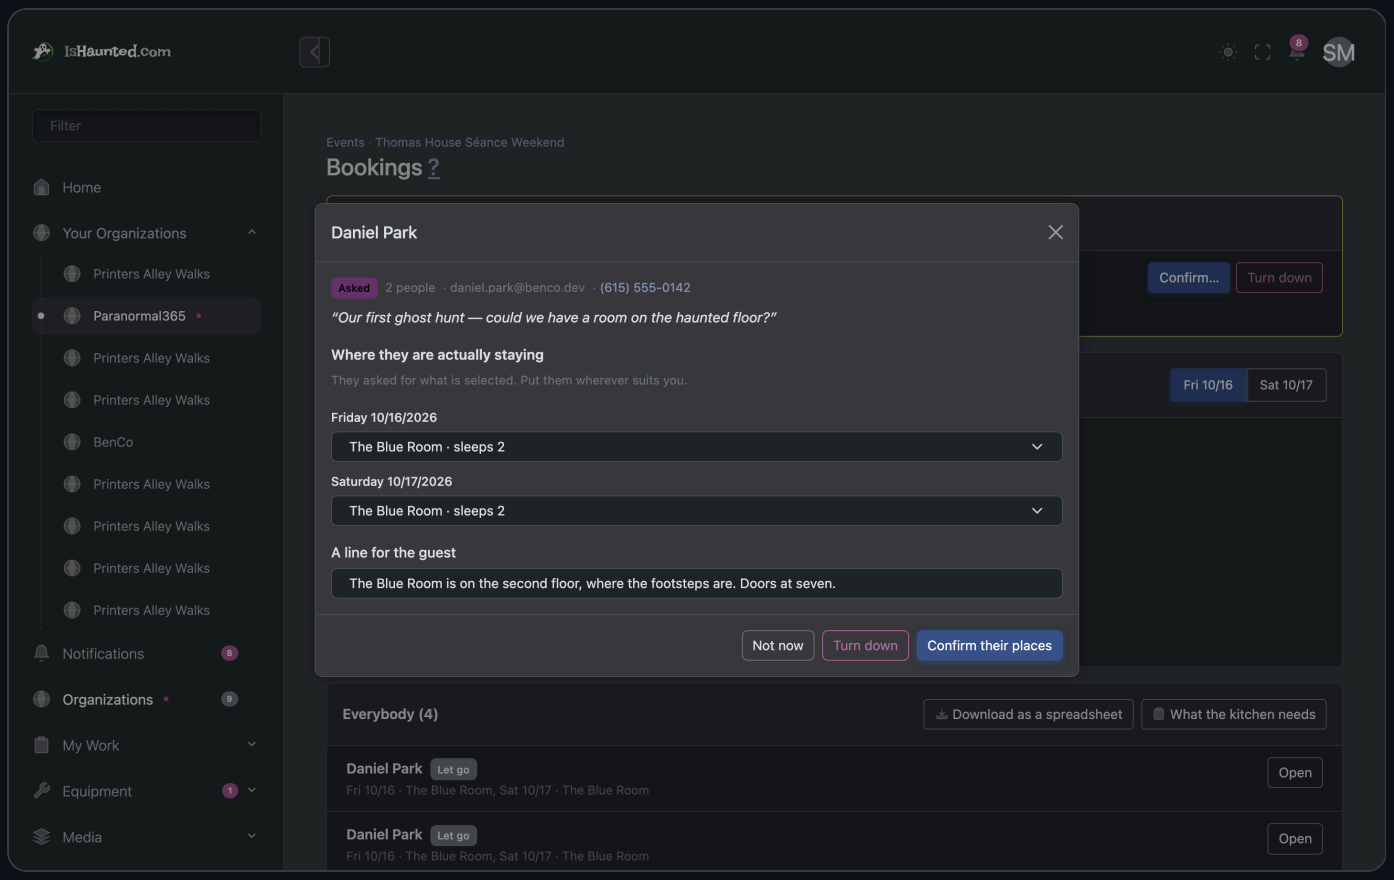

Tours

Event at a glance. A hosted event's numbers: people coming, parties waiting, places left night by night, arrivals and reviews.

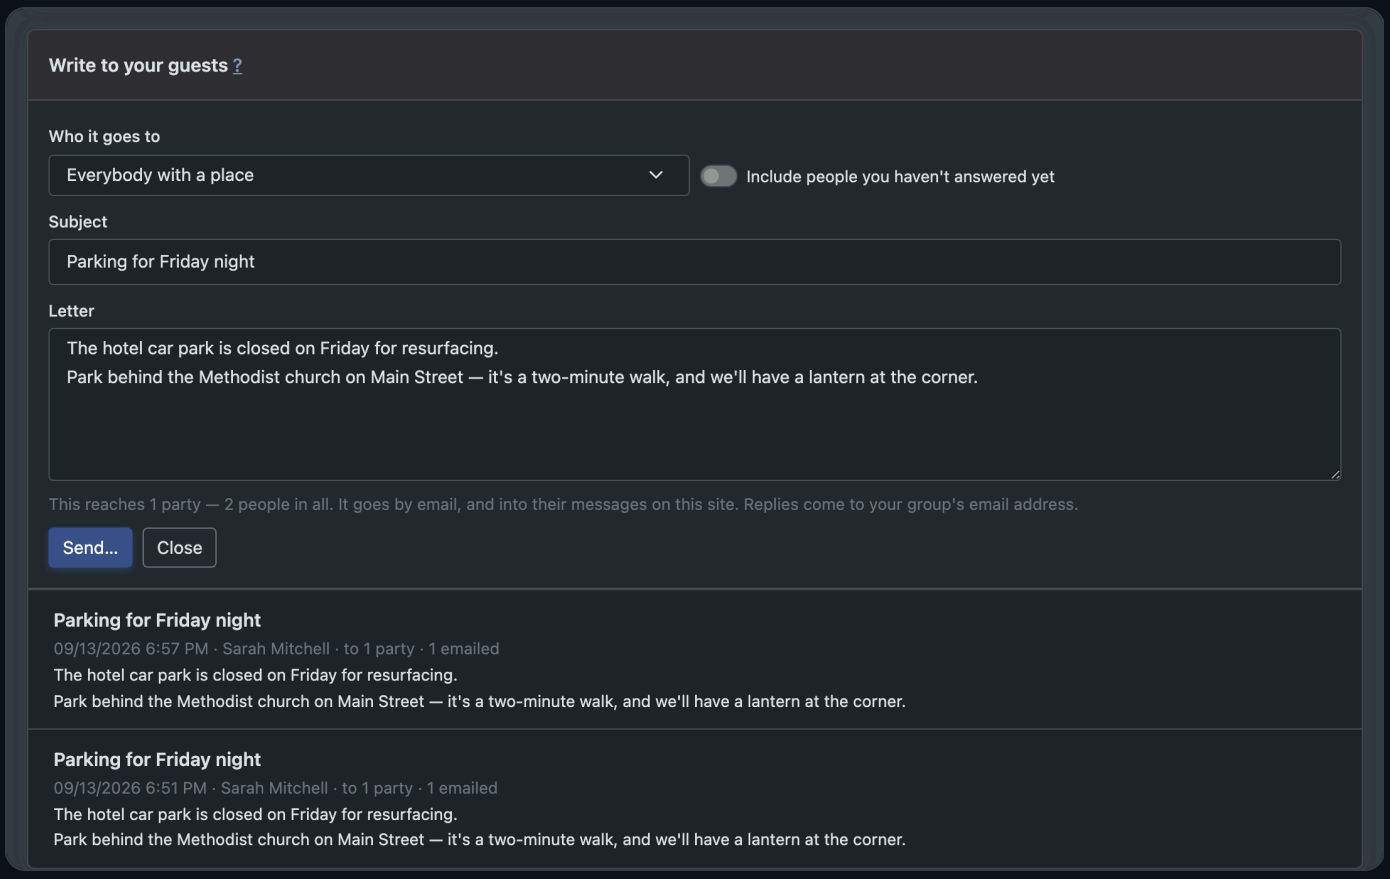

Event at a glance

Confirming a booking. Confirming a party into the rooms the organizer chooses, with a line the guest reads. The pass goes with the confirmation.

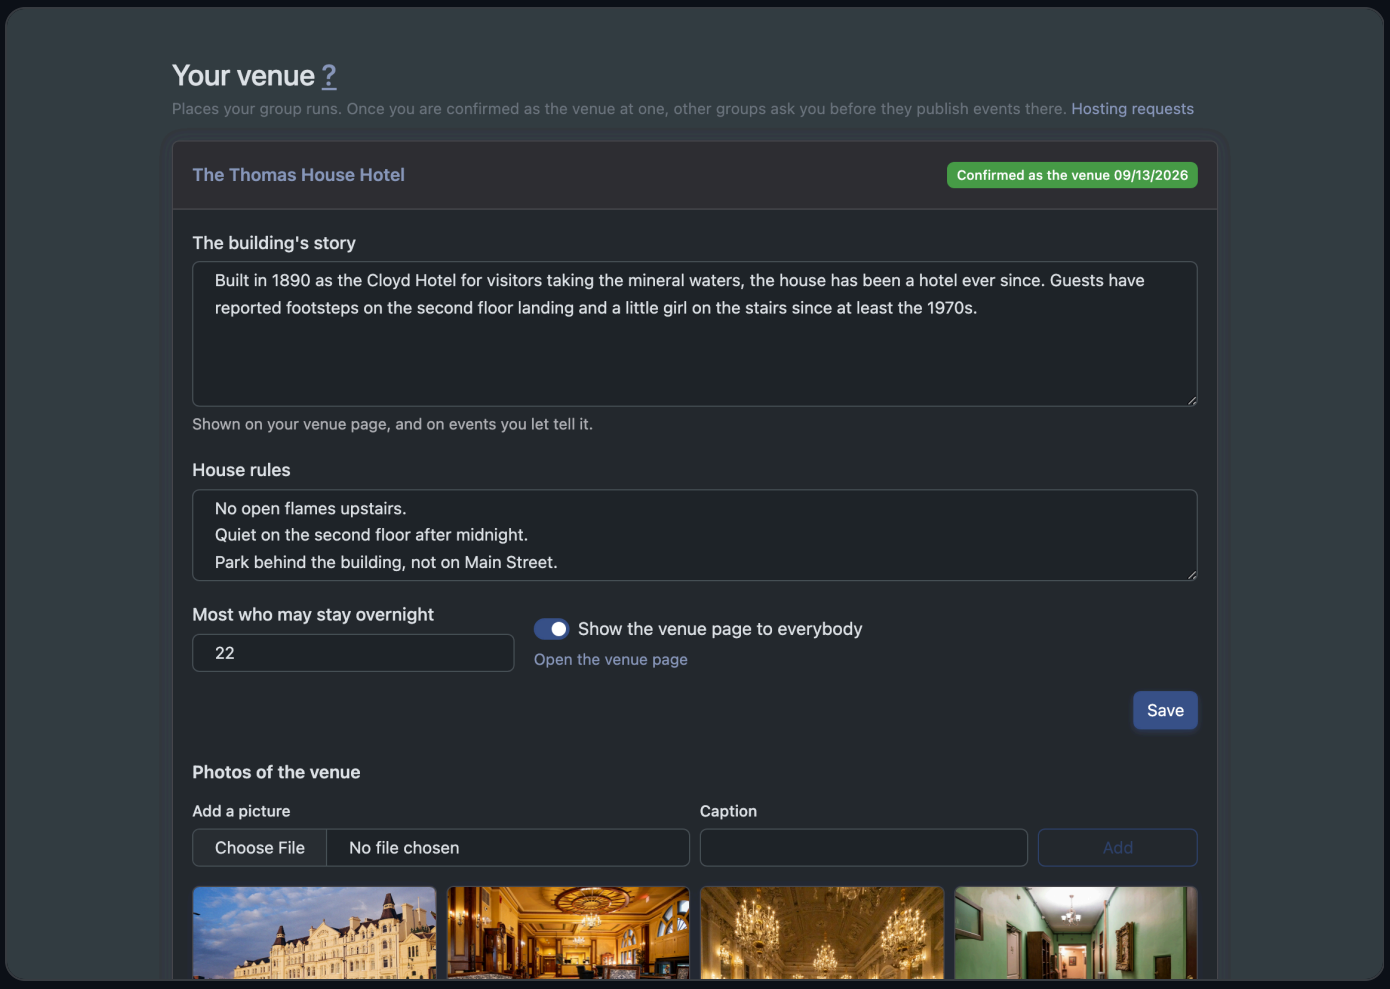

Confirming a booking

Writing to guests. One letter to everybody with a place, with the count shown before it is sent.

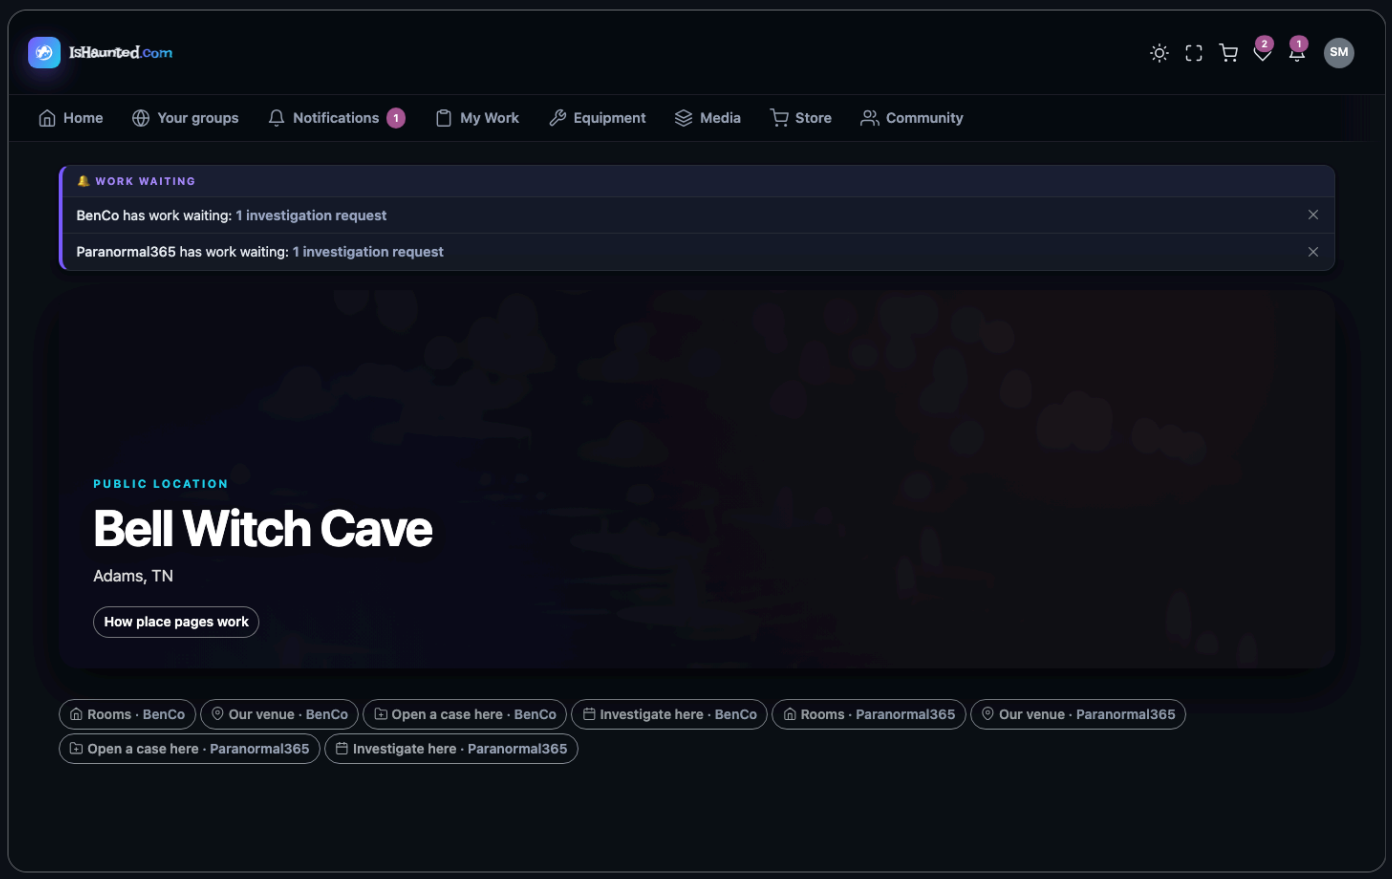

Writing to guests

Venue profile. The group's venue: its history, house rules and photo library.

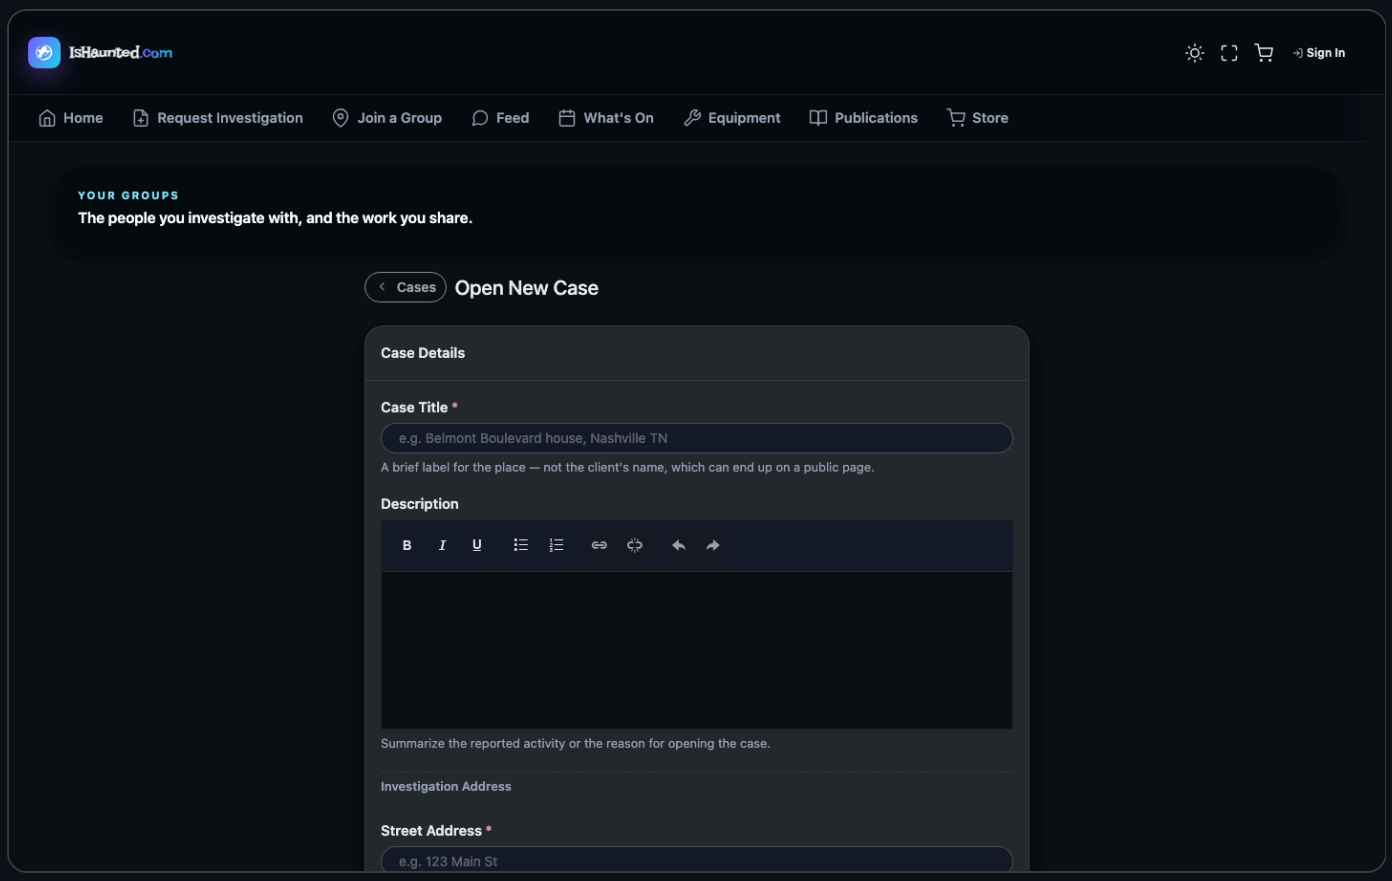

Venue profile

A public place.

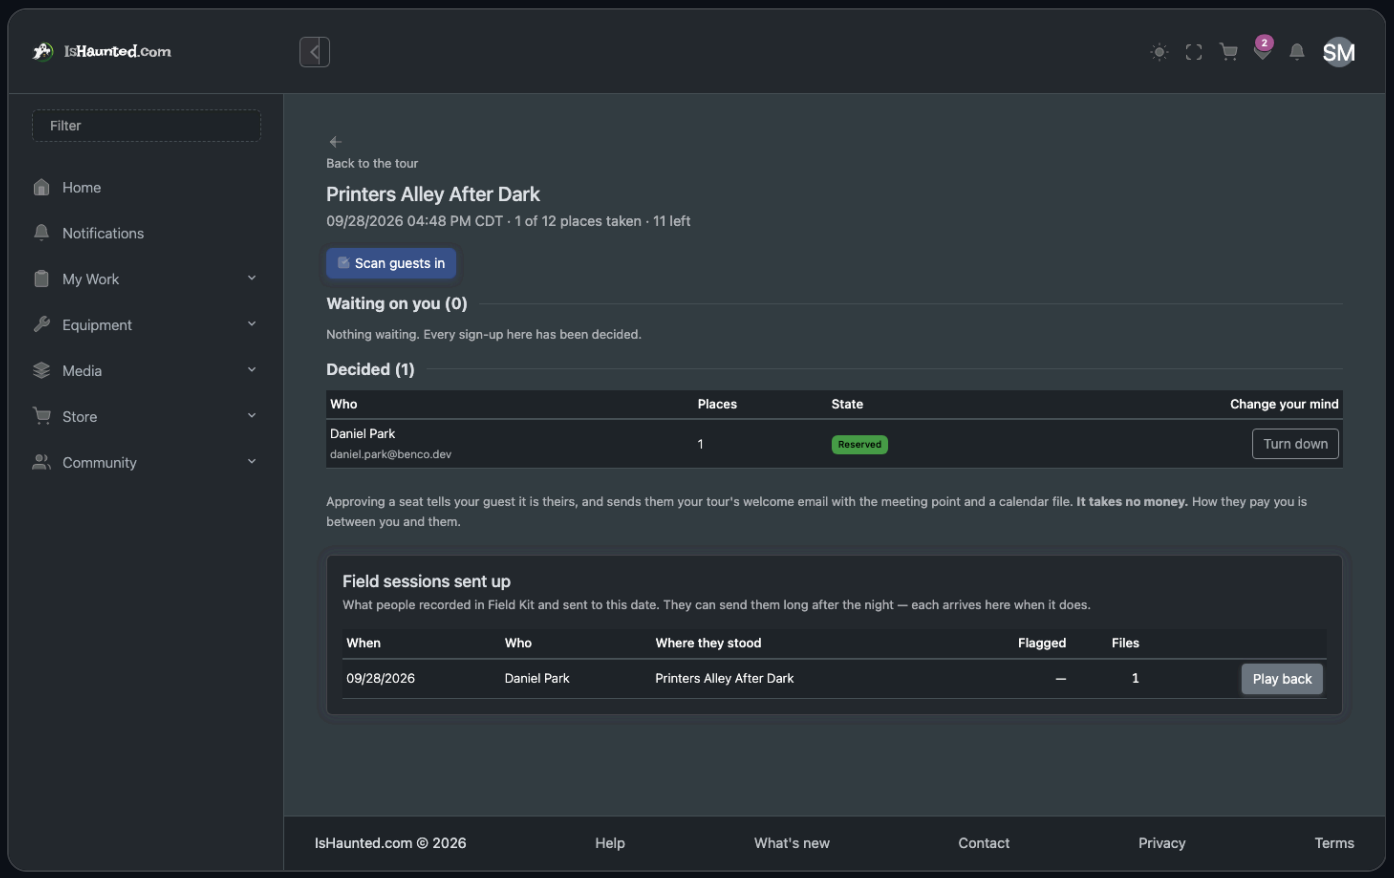

A public place

New case at a place.

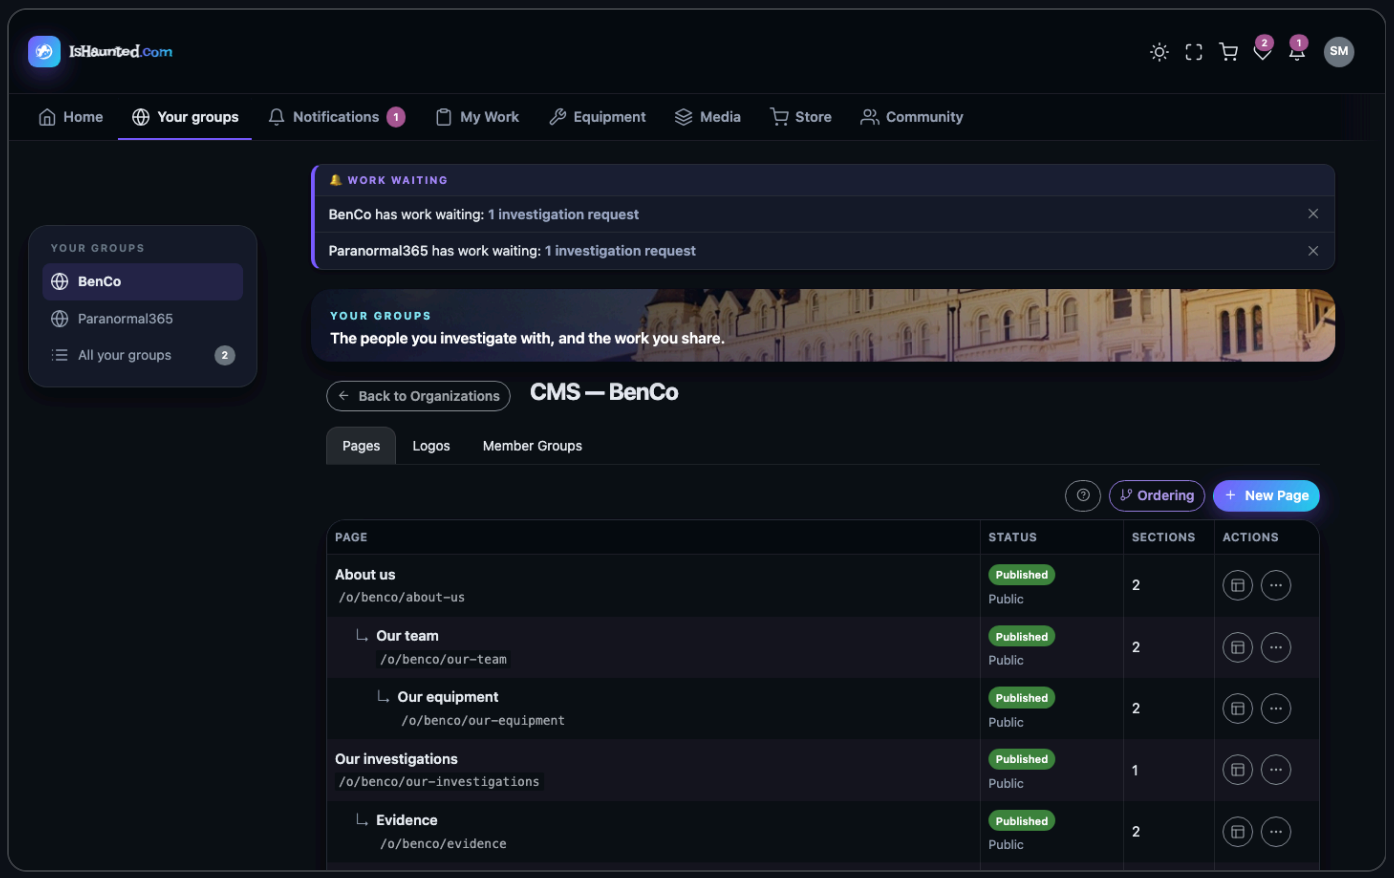

New case at a place

Tour date field sessions. A tour date's page after the night: the seats, and the Paranormal Platform sessions guests sent up from the guide's launch, with Play back.

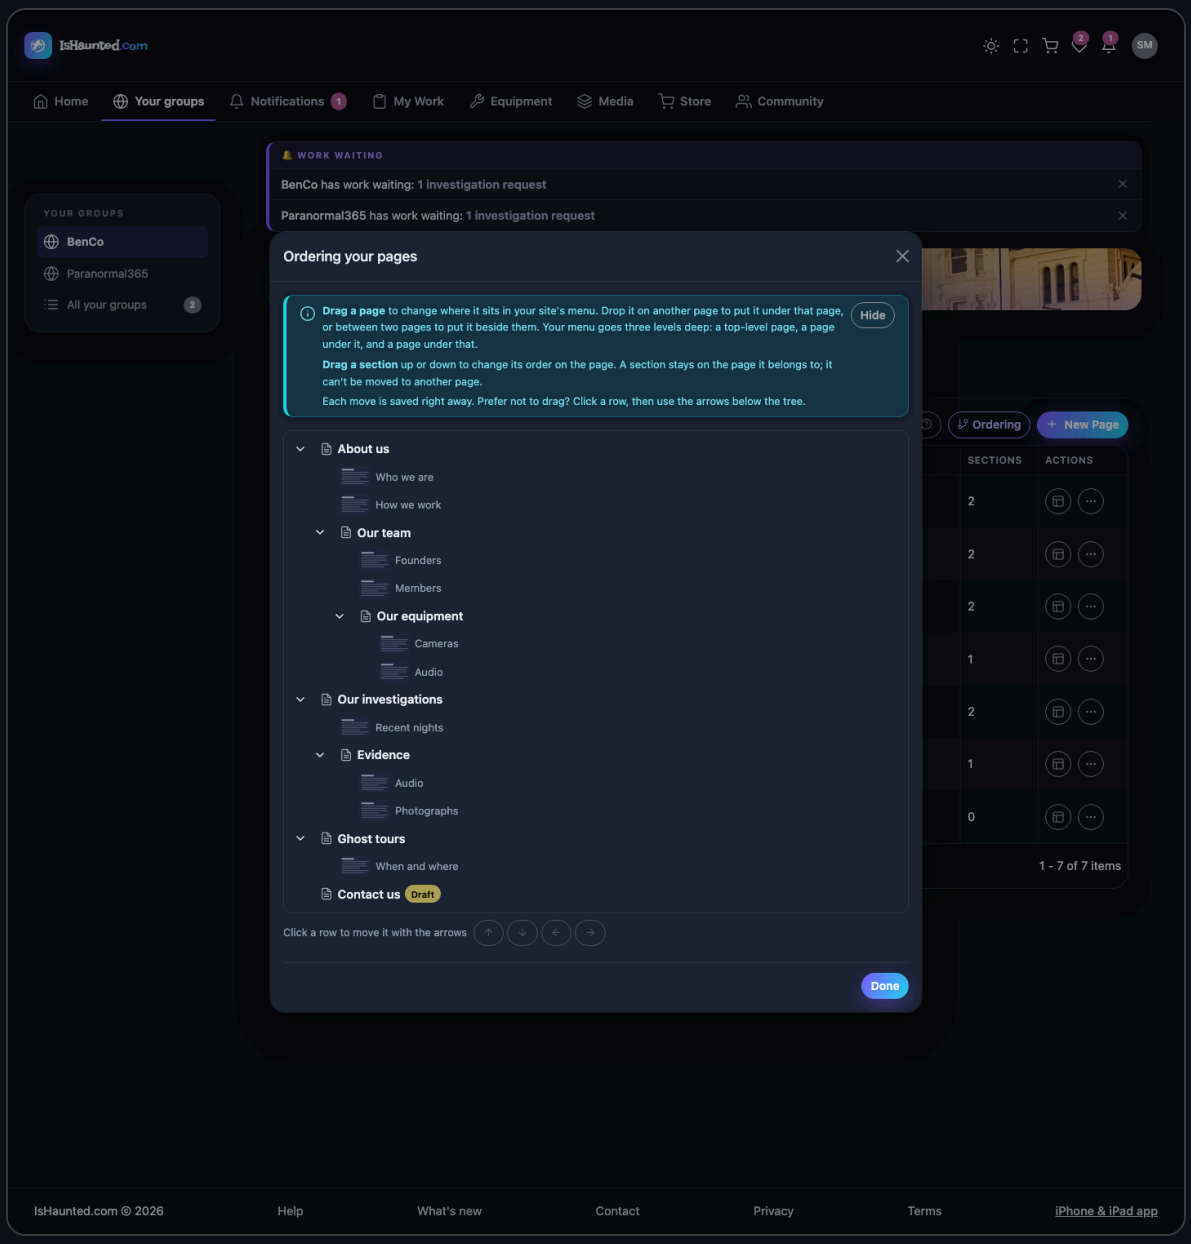

Tour date field sessions

Website pages. The group's public pages, listed the way its menu runs: each page under the one it sits under, with Ordering beside New Page (10/09/2026).

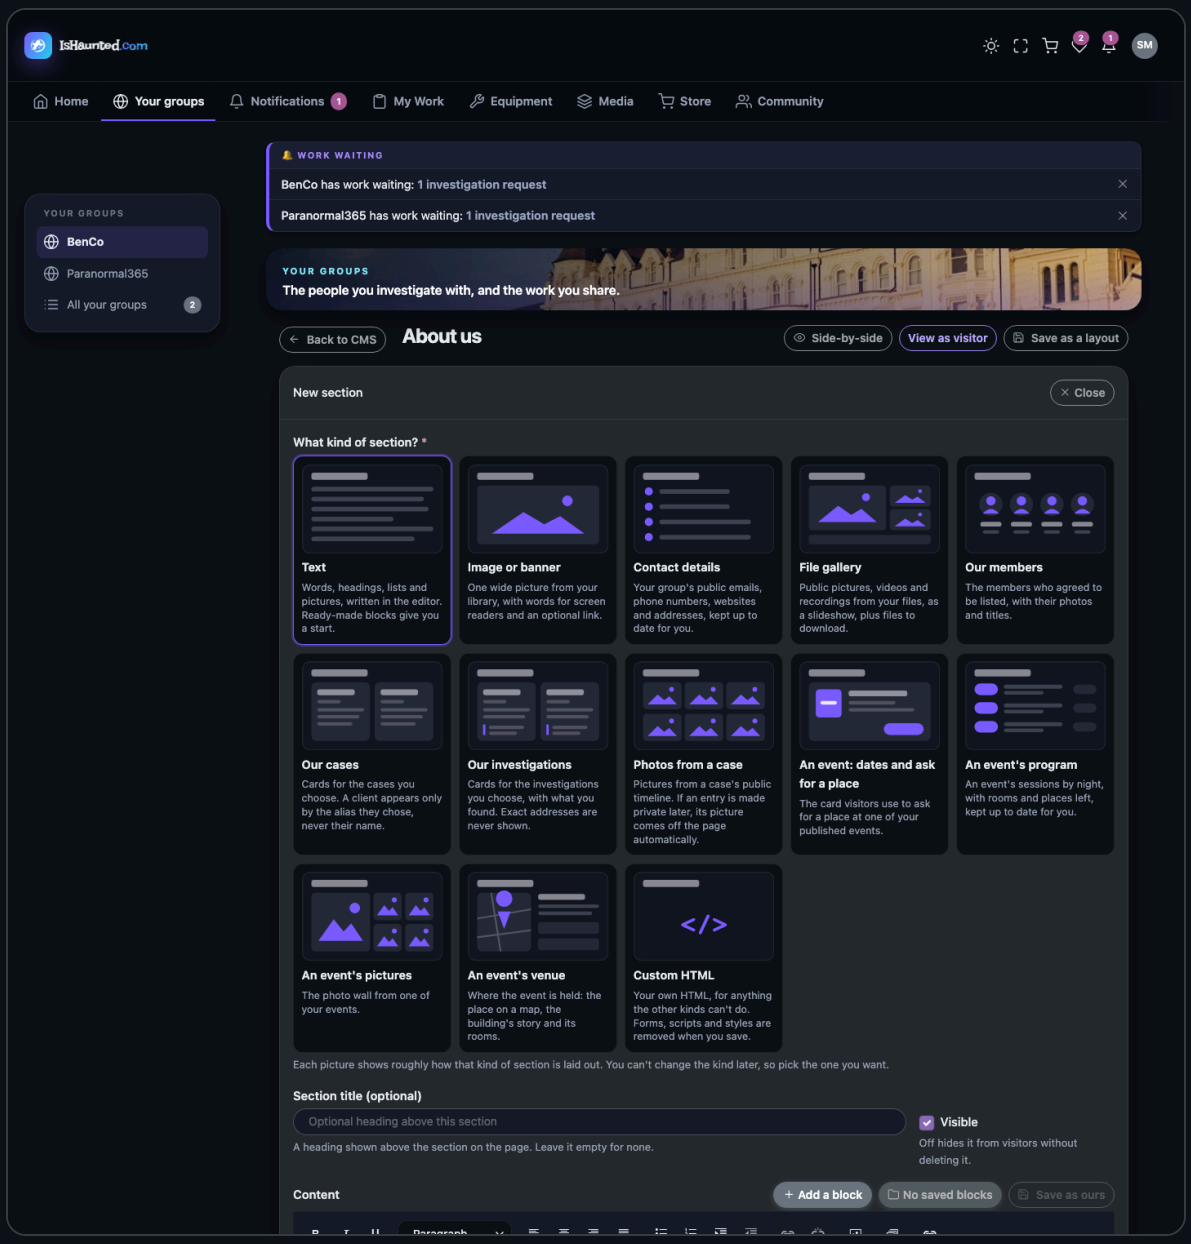

Website pages

Website ordering. Ordering: every page and its sections as one tree. Pages drag anywhere three levels deep; sections only move within their page; each move saves as it is made.

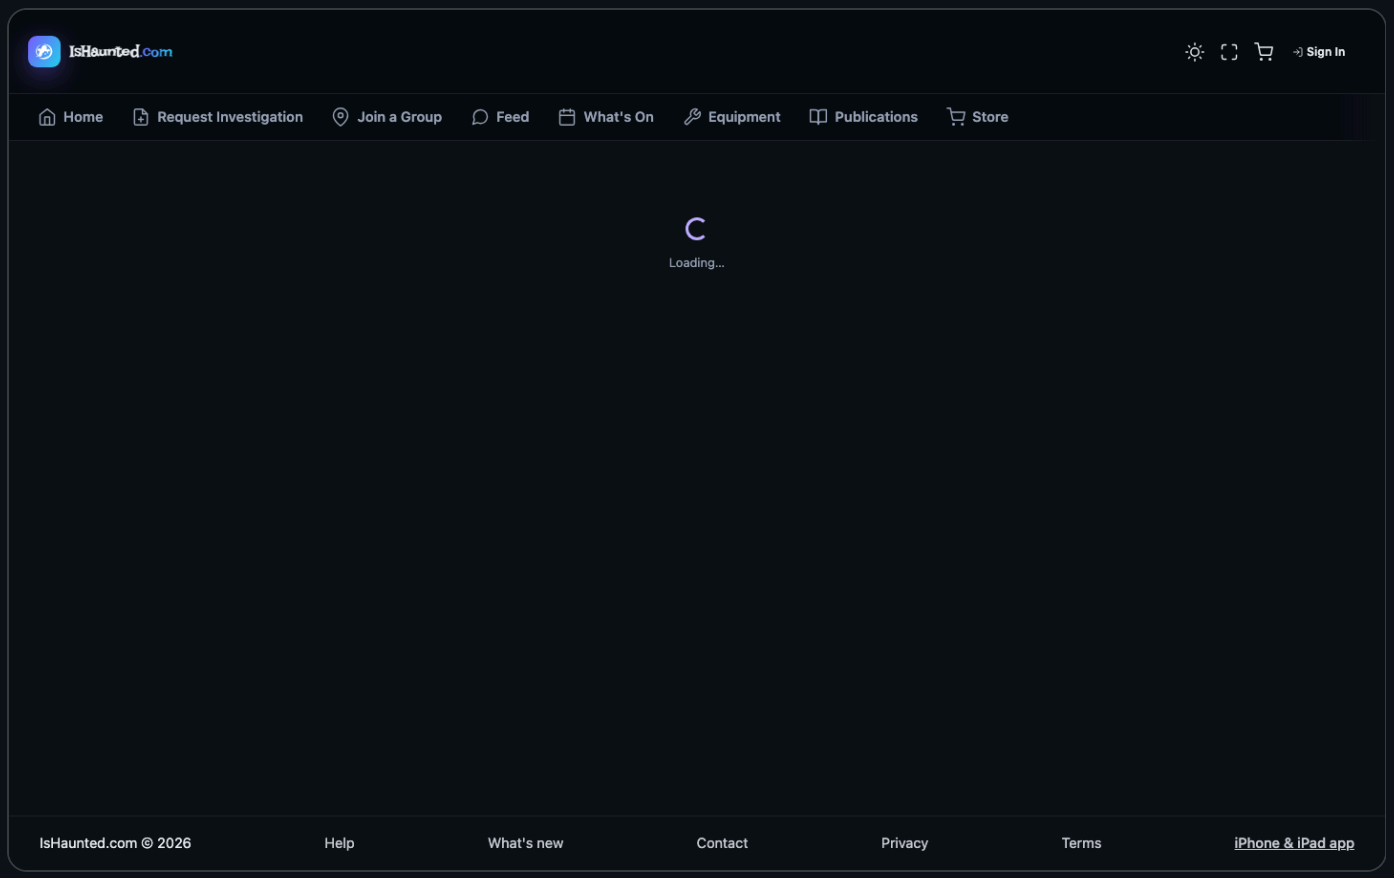

Website ordering

Website section kinds. Adding a section: each kind is a picture of where things go, with Preview before Cancel to see it filled in as a visitor will.

Website section kinds

Website visitor menu. What a visitor gets: the page's intro above its sections, and the pages under it as a row beneath the group's menu.

Website visitor menu
